The FLEX Community

The FLEX Community allows consumers to have an active participation in the electricity sector to help to reduce carbon emissions and be energy efficient while providing electricity flexibility to the grid, which is achieved by the ability of the consumer to change the electricity consumption in real time to electricity system requests, in order to avoid congestion or synchronize RES (renewable energy sources) generation with consumption.

The FLEX Community provides an online Ecosystem which helps you chose the most suitable energy plan to unlock your flexibility, improve your energy efficiency, adopt

renewable generation and select the most suitable equipment/appliances for your home, by signing up to specific plans ("Plans").

Registering on FLEX Community

To be able to access the FLEX Community and to become part of our FLEX Community, you should register at <https://www.stemyenergy.co.uk/signup/> (our "Portal")

Once registered, you will be able to apply for various Plans accessible via our Portal.

Leaving the FLEX Community

You will be able to leave the FLEX Community at any time by notifying us in writing at goodbye@stemyenergy.co.uk.
